Welcome to Racquet Club Estates! This midcentury modern home was built by Jack Meiselman in 1959, but has been expanded and transformed with modern amenities for year-round living. Among the features of this four bedroom/five bathroom modernist compound you'll find a chef's kitchen with high-end appliances (it even has a built-in Miele coffee machine!) and sleek German Bulthaup cabinets, three bedrooms in the main house, a home office/den, living room with an architectural block fireplace, a separate casita with bath, a fitness room, and a laundry room. Poolside you'll enjoy the outdoor kitchen, a pool bath off the oversized swimming pool with waterfalls and an elevated seating area to take in the panoramic mountain views. Additionally, the swimming pool has a salt water system. The large private outdoor entertainment areas make this home a superstar. This home is on fee land (that you own) and has no HOA. Your place in the Sun is just minutes from vibrant downtown Palm Springs dining and attractions. Buyer to verify city rental rules, square footage, and building permits.
